CAREER OBJECTIVE

Computer Science Engineering student with hands-on experience in React, JavaScript, and modern web development. Passionate about building user-focused software solutions and strengthening problem-solving skills through Data Structures & Algorithms and practical software engineering projects.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering

2024 – 2028 (Expected)

Jawaharlal Nehru University, New Delhi (CGPA: 7.08/9.00)

TECHNICAL SKILLS

Programming : Java, C

Web Development : HTML, CSS, JavaScript, React, Tailwind CSS, Node.js

Database: MySQL, Supabase

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management System (DBMS)

Programming Tools: Git, GitHub, VS Code, IntelliJ IDEA, Vercel, Wix

PROJECTS

AI Freelancer Finance Assistant | React, Tailwind CSS, Supabase, Gemini API, Vercel

- Developed and deployed a finance management platform for freelancers featuring invoice generation, earnings estimation, payment fee comparison, and financial tracking tools.
- Integrated Supabase for data storage and Gemini API to generate contextual financial insights and recommendations.
- Built responsive dashboards using React and Tailwind CSS to improve accessibility across desktop and mobile devices.
- Deployed the application on Vercel and continuously enhanced features based on user experience improvements.

ScopeWise – Project Scope Analysis & Proposal Generator | React, JavaScript, Tailwind CSS, Vercel

- Built ScopeWise, a project scope analysis platform that helps freelancers evaluate client requirements before accepting projects.
- Implemented rule-based scoring, risk assessment, pricing recommendations, timeline estimation, and project complexity analysis.
- Generated structured outputs including deliverables, negotiation suggestions, client email drafts, and Statement of Work (SOW) documents.
- Designed and deployed a responsive dashboard with dynamic form handling and project evaluation workflows.

PROBLEM SOLVING

- Solved **50+** Data Structures & Algorithms problems on LeetCode.
- Strong understanding of Arrays, Hashing, Two Pointers, Sliding window, OOP, and problem-solving using Java.

EXPERIENCE

Web Development Intern – InAmigos Foundation

- Conducted website audits and UI/UX evaluations, identifying improvements in navigation, content hierarchy, user flow, and CTA placement.
- Prepared website analysis reports with actionable recommendations to improve usability, accessibility, and overall user experience.
- Built and customized web pages using Wix while applying responsive design principles, content structuring, and conversion-focused user journeys.

ADDITIONAL INFORMATION

Achievements: Top 5 Performer – GDGC Sky Architect Program | **2nd Prize** – EngQuest, School of Engineering, JNU

Certifications: Aspire Leaders Program | FLY Leadership Program (CMI) | Web Development(InAmigos) | SQL Fundamentals

Positions of responsibility: Class Representative (2024–Present) | Representative – Placement Cell SOE
