PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in **React, JavaScript, Tailwind CSS, Node.js, and SQL**. Built and deployed responsive web applications with database integration and API-driven features. Strong foundation in DSA, OOP, DBMS, and core CS fundamentals.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering
Jawaharlal Nehru University, New Delhi (CGPA: 7.30/9.00)

2024 – 2028 (Expected)

TECHNICAL SKILLS

Programming : Java, C

Frontend : HTML, CSS, JavaScript, React, Tailwind CSS, Responsive Web Design

Backend & Database: Node.js, MySQL, Supabase

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Operating System

Programming Tools: Git, GitHub, VS Code, IntelliJ IDEA, Vercel, Wix

PROJECTS

AI Freelancer Finance Assistant | React, Tailwind CSS, Supabase, Gemini API, Vercel

- Developed and deployed a finance management web application for freelancers featuring **invoice generation, earnings estimation, payment fee comparison, and financial tracking**.
- Integrated **Supabase** for data storage and user login and **Gemini API** for generating contextual financial insights and recommendations.
- Built responsive **React and Tailwind CSS** interfaces for invoice management, invoice history, and payment-status tracking.

ScopeWise – Project Scope Analysis & Proposal Generator | React, JavaScript, Tailwind CSS, Vercel

- Built a responsive **React web application** for analyzing freelance project requirements and evaluating project feasibility.
- Implemented rule-based **risk scoring, pricing recommendations, timeline estimation, and complexity analysis** using dynamic form inputs.
- Generated structured project outputs including deliverables, negotiation suggestions, client emails, and **SOW documents**.

Freelancer Finance Database | MySQL

- Designed a **relational database** with appropriate primary and foreign key relationships for managing financial and client data.
- Wrote SQL queries using **JOINS, subqueries, aggregate functions, GROUP BY, WHERE-based filtering, and ORDER BY sorting** for data analysis.
- Created **SQL views** to simplify access to frequently used financial information and improve query reusability.

EXPERIENCE

Web Development Intern – InAmigos Foundation

- Conducted website audits and UI/UX evaluations, identifying improvements in navigation, content hierarchy, user flow, and CTA placement.
- Built and customized responsive web pages using Wix, applying structured content and conversion-focused design principles.
- Prepared actionable website analysis reports to improve **usability and user experience**.

PROBLEM SOLVING

- Solved **50+ Data Structures & Algorithms problems on LeetCode** using Java.
- Practiced **Arrays, Hashing, Two Pointers, Sliding Window, Linked Lists, Stacks & Queues, and OOP**.

ACHIEVEMENTS AND LEADERSHIP

Top 3 Performer – Web Development Summer Bootcamp, COLD (Coding Club of SOE), JNU

Top 3 Performer – Competitive Programming Bootcamp, COLD (Coding Club of SOE), JNU

2nd Prize – EngQuest, School of Engineering, JNU | **Top 5 Performer – GDGC Sky Architect Program**

Class Representative (2024–Present) | **Placement Cell Representative**, School of Engineering, JNU
