CAREER OBJECTIVE

Computer Science student passionate about Frontend Development and User Experience. Skilled in React, JavaScript, HTML, and CSS with experience building responsive web applications, improving usability, and creating intuitive user interfaces. Eager to develop scalable and user-friendly web solutions while continuously strengthening software development skills.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering
Jawaharlal Nehru University, New Delhi (CGPA: 7.08/9.00)

2024 – 2028 (Expected)

TECHNICAL SKILLS

Programming : Java, JavaScript, C

Web Development : HTML, CSS, JavaScript, React, Tailwind CSS

Backend & APIs: Supabase, REST APIs, Gemini API

CS Fundamentals: Data Structures and Algorithms , Object-Oriented Programming(OOP)

Programming Tools: Git, GitHub, VS Code, IntelliJ Idea, Wix, Vercel

AI Tools: ChatGPT, Gemini, Claude

PROJECTS

AI Freelancer Finance Assistant | React, Tailwind CSS, Supabase, Gemini API, Vercel

- Developed and deployed a responsive finance dashboard for freelancers using React and Tailwind CSS.
- Implemented invoice generation, earnings estimation, payment fee comparison, and financial tracking features.
- Integrated Supabase for data management and Gemini API for AI-assisted financial insights.
- Designed responsive user interfaces and optimized the application for desktop and mobile devices.
- Deployed the application on Vercel and managed iterative feature improvements.

Personal Portfolio Website | React, CSS

- Designed and developed a fully responsive personal portfolio website using React and CSS.
- Implemented reusable components, responsive layouts, and smooth navigation across devices.
- Applied UI/UX principles to improve visual hierarchy, accessibility, and user experience.
- Deployed the project and continuously refined responsiveness and interface design.

GK Quiz Web Application | HTML, CSS, JavaScript

- Developed an interactive quiz application with dynamic question rendering, score calculation, and real-time feedback.
- Implemented JavaScript-based game logic, user interaction handling, and responsive layouts using HTML and CSS.

EXPERIENCE

Web Development Intern – InAmigos Foundation

- Conducted website audits and UI/UX evaluations, identifying improvements in navigation, content hierarchy, user flow, and call-to-action placement.
- Prepared detailed website analysis reports with actionable recommendations to improve usability, accessibility, and overall user experience.
- Built and customized web pages using Wix while implementing content structure, responsive design principles, and recommending website sections, user journeys, and conversion-focused CTA placement.
